

Worshipful Company of Founders

Carbon Net Zero Plan

1. Time heating. Currently to heat the Hall for the following day heating must be left on overnight. Plan a timer system - **Achieved**
2. When gas & electricity contracts end, secure green supplies
3. Implement food waste management - **Achieved**
4. Verify with waste management contractor (Veolia) detailed carbon footprint
5. Verify with catering contractor (Life's Kitchen) carbon footprint and work to reduce
6. Verify with wine suppliers carbon footprint and work to reduce (e.g lighter bottles)
7. Encourage Company members to travel to Hall and other events by net zero forms of transport.
8. Verify with water supplier carbon footprint and work to reduce
9. Audit building windows to improve insulation – limited impact as building listed.

Target

WCF's target matches that of the City of London – net zero by 2040.
